Description

Kickstart your project with **LazyDev's Abandoned Tunnel Environment**, built for developers who want to focus on gameplay, not endless environment setup. This asset pack is designed to save you hours of work by including ready-made demo level alongside fully modular assets, so you can copy, customize, and expand without starting from scratch.

Whether you're building a horror game, thriller, or atmospheric exploration project, this environment delivers the perfect mix of **creepy visuals, modular flexibility, and ready-to-use scenes** that speed up your workflow.
